## Daily Camp Activities

Camp COAST has a maximum of 20 children in camp each week. Each camper will have a teen intern assigned to him/her (ages 5-10). The teen intern supports the Camp COAST child in their daily activities and accompanies them on field trips. Daily activities include, but are not limited to, swimming, sensory games and various events designed for children on the autism spectrum or with developmental disabilities.

## Medication

Any prescription medications that are to be administered should be brought to camp and given to a staff member, sealed in a paper bag (child's name and camp attending) with the following:

- Must be in original prescription container with the child's name printed on it.
- Medical release permission slip needs to be filled out.
- Written instructions as per quantity, time to administer and any other directions and written clearance giving the YMCA permission to administer medication. Please specify if refrigeration is necessary.

NOTE: No over-the-counter medication will be administered.

## Lunch and Snack

Lunch and snack are provided by each child's parent. Healthy nutritious foods, low in sugar, are encouraged. Lunch and snack should be packed in a mini-ice chest with a refreezable ice block.

## Safe Environment

Please note that our highly qualified staff believes all staff and children should be and feel safe during their summer day camp experience. Children who demonstrate physically aggressive or sexually inappropriate behaviors will not be considered high-functioning on the spectrum.

## Attendance Costs
